TWELFTH ANNUAL REPORT

OF THE

BOARD OF DIRECTORS

OF THE

Underwriters' Fire Patrol of San Francisco

For the Year Ending December 31st, 1886.

At the Annual Meeting of this Corporation, regularly held in January last, the following named gentlemen were elected Directors to serve for the ensuing year, viz:

DIRECTORS:

WM. MACDONALD,

H. R. MANN,

E. E. POTTER,

GEORGE EASTON,

WM. J. LANDERS,

ROBERT DICKSON,

CHAS. A. LATON.

OFFICERS:

CHAS. A. LATON, *President.*

ROBERT DICKSON, *Vice-President.*

WM. J. LANDERS, *Secretary and Treasurer.*

Headquarters of the Patrol and Station No. 1, at the southwest corner of Stevenson and Ecker Streets.

Station No. 2, Grove Street, between Larkin and Polk Streets, near the New City Hall.

SAN FRANCISCO.

DIRECTORS' REPORT.

SAN FRANCISCO, January 20, 1887.

To the Members of the Underwriters' Fire Patrol of San Francisco:

GENTLEMEN: The Board of Directors beg leave to hand you herewith the twelfth annual report of the operations of this Corporation.

The year has been one of much activity for the Patrol. There have been vastly more fires than during the preceding year, and the losses by fire have been very much more severe than during 1885. All of the operations of the Patrol during the past year have been conducted in a satisfactory manner, and with marked success in the saving of property. The apparatus, horses, etc., belonging to this Corporation are all in good working order, and we have every reason to believe that they will continue so to be, under the direction of Captain Russell White. The Patrol is endeavoring to cover a very large proportion of the city with its two Stations. Station No. 2 is compelled to make some very long runs in response to alarms from outlying districts, nevertheless the Directors have had under consideration the propriety of extending the runs of Station No. 2 even farther than they are at present expected to go, owing to the fact that in the western and northwestern sections of the city there is an important increase in the amount of valuable property.

Of course it must be well understood that the Patrol is somewhat at a disadvantage in answering alarms from very distant boxes, nevertheless the Directors have considered it wise to do as much service as is possible. For such other information as is pertinent and important, reference is hereby made to the report of Captain Russell White.

The Directors take pleasure in referring with much commendation to the excellent service and deportment of all of the members of the Patrol force during the year which has just closed.

The Inspection Bureau (an epitome of the operations of said Bureau which appeared in the last annual report) has been discontinued as an adjunct of the Underwriters' Fire Patrol, and is now being conducted separately.

The Directors beg leave to refer with no small amount of pleasure to the continued co-operation and kindly feeling which exists between the San Francisco Fire Department and the Underwriters' Fire Patrol of San Francisco. It is to be hoped that this state of things will always exist, because of the satisfactory results which are reached on this account. The same thing is said with reference to the Fire Alarm and Police Telegraph, Police Department, Fire Marshal, Telephone Companies, and a host of friends and well-wishers generally. The Directors are pleased to extend their warmest congratulations to our veteran Chief Engineer, David Scammell, Esq., also to

all of his Assistants and Subordinates in the Fire Department. With many thanks and good wishes to Supt. Curran and his Assistants of the Fire Alarm and Police Telegraph, likewise to Charles Towe, Fire Marshal, and to Chief of Police Crowley, and to the several officers and members of the Police force.

All of which is very respectfully submitted,

ROB'T DICKSON, <i>Vice-President,</i>	}	<i>Directors.</i>
H. R. MANN,		
GEO. EASTON,		
E. E. POTTER,		
WM. MACDONALD,		
WM. J. LANDERS, <i>Sec. & Treas.</i>		
CHAS. A. LATON, <i>President.</i>		

REPORT OF CAPTAIN WHITE.

HEADQUARTERS UNDERWRITERS' FIRE PATROL,

SAN FRANCISCO, January 20, 1887.

To the President and Board of Directors of the Underwriters' Fire Patrol:

GENTLEMEN: I am pleased to submit to you my Twelfth Annual Report, for your consideration. It embraces a review of the duties performed, report of fires which have occurred, the locations of same, losses, amount of insurance involved, etc., etc.

During the past twelve years (and for years prior thereto) there has been a large amount of valuable property destroyed, by reason of the flow of water (used at fires) into basements and to adjoining basements and cellars.

During the past year this Corporation instructed and authorized the Directors to procure a Steam Pump, to be used for the purpose of promptly removing water from basements and cellars, as above referred to. This Steam Pump has proved itself to be a most valuable addition and auxiliary to the other service performed by this organization. Almost as soon as the Steam Pump was completed and ready for action it was made use of at the Antisell fire on Ellis street. It worked admirably, securing an estimated salvage of about \$20,000. The Pump was again made use of at the Schmidt Label and Lithographic Company and Tatum & Bowen fire on Main street. In this instance, experts placed the salvage, by reason of the service performed by the Pump, at about \$15,000. This very useful and well-constructed piece of machinery was manufactured by the *Dow Steam Pump Works*, of this city. In brief, the specifications of the construction of this Salvage Steam Pump are as follows: Height of the pump from the ground to the top of the smoke-stack, 9 feet, 3 inches; length of the apparatus over all, including pole, 24 feet, 6 inches; weight, 8,760 pounds; steel boiler, 36 inches in diameter by 6 feet, 6 inches high, containing 211 $1\frac{1}{2}$ inch tubes; total heating surface, 198 square feet; two 7 inch suction and two 7 inch discharge outlets to the pump; diameter of the cylinder of the engine, 10 inches; diameter of the plunger of the pump, 16 inches; length of stroke, 18 inches; capacity of the pump, per stroke, 15 gallons; capacity of same at 140 strokes per minute, 2,100 gallons. Connected with this Steam Pump is a hose-wagon, being fully equipped as follows: 8 lengths of 7 inch suction, 12 feet each, making 96 feet; 200 feet of 10 inch canvas hose; 4 strainers; 4 sacks coal, rope, wrenches, etc., etc. This steam pump and hose-wagon are housed at Station No. 1, so arranged as that the steam pump can be placed in service, day or night within ten minutes' time.

All of the apparatus of the Underwriters' Fire Patrol is in fine condition. The horses are all in good trim, with two exceptions, namely, "Old

Tiger," who has so faithfully performed his duty for nine years, is now about 16 years old, and is beginning to show unmistakable signs of old age, and notwithstanding he has been a most magnificent animal, he will soon be unfit for active service. The gray mare, known as "Mary," at Station No. 2, is also in poor condition and will soon have to be replaced by a more suitable animal.

During the past year we have been very unfortunate by reason of the loss of covers, eighty-six (86) of these were destroyed at two fires; in both of these instances, it was a case of *men or covers*, and we chose to save the men. I am exceedingly sorry to be compelled to chronicle the loss of so many covers belonging to this Corporation, but it could not possibly be helped.

I am pleased to state that no accident has taken place during the year, causing permanent or very serious injury to any of the members of the force. This is something to be gratified over.

I desire to call your attention to the increasing number of dwellings and retail stores in what is known as the "Western Addition," some of which have thus far been unprotected by the Patrol. I would suggest that when the lease of the ground now used by Station No. 2 expires, that an effort be made to secure a location at a point somewhat further north, and possibly a little further west.

It is my pleasure to state that all of the members of the Patrol force have responded promptly to all calls, and have performed their duty with efficiency, in every department of their work.

I desire to express my many obligations to the President and Board of Directors, for their earnest support and ready co-operation in all of the efforts which I have been pleased to put forth in connection with this enterprise. I also desire to express like obligations to David Scannell, Esq., Chief Engineer of the San Francisco Fire Department, who has continually extended his help and good-will towards the Patrol. Also for favors and attentions of various kinds from the Board of Fire Commissioners, the Assistant Engineer and all of the officers and members of the Fire Department, also from Charles Towe, Fire Marshal; John Curran, Superintendent of the Fire Alarm and Police Telegraph, and his efficient force of operators. Also from the Chief of Police, his officers and the members of the Police Department, who have on all occasions co-operated willingly with the Patrol force, and are entitled to my warmest thanks.

All of which is respectfully submitted,

RUSSELL WHITE,
Captain Fire Patrol.
